

**To :** Woodbine Backstretch  
**Date :** November 3, 2010  
**Subject :** Winter Vacate

---

The final Woodbine 2010 Thoroughbred race date is December 5. All horses and horsemen should vacate the Woodbine backstretch by 4 p.m. on December 8.

Trainers must ensure that their shedrows and all stalls are thoroughly cleaned before leaving for the winter. Trainers leaving uncleaned stalls will be fined \$100 per stall.

Trainers' unpaid accounts (Environmental Surcharges or Horseman's Bookkeeper) may impact stall allocations in 2011. Also, make certain that accounts with your suppliers (blacksmith, feed supplier, veterinarian, tack shop, etc.) are up to date.

**All horse trailers, feed lot trailers and personal vehicles must be removed from the Woodbine Stable Area by December 8<sup>th</sup>. This equipment may not 'winter' at Woodbine, it may return when the stable area reopens. Vehicles or trailers remaining in the backstretch after December 8 may not be eligible to return in 2011.**

Dormitory residents may leave their vehicles at the Dormitory #1 lot with the written permission of Donna Duda (416-675-3993 ext. 2626). **Unapproved vehicles may be removed at WEG's discretion.**

Trainers may store their equipment in the green storage bins. Be advised that these bins may be moved and stacked as needed to accommodate construction and/or maintenance projects. Access to these bins will be restricted through the winter and stored equipment is likely to shift with bin movement.

All horsemen are advised not to leave any valuable or expensive items, such as saddles and other tack, at Woodbine over the winter months. The security of these items cannot and will never be guaranteed.

**Effective December 10, 2010 the stable area will be closed and off-limits to all horsemen or visitors.**

Horsemen, employees, suppliers or other visitors should not enter the barn areas without express, prior approval from the Racing Office or Stable Area Security.

**The East entrance will be closed nightly to all nonessential and non-emergency traffic between the hours of 6 p.m. and 6 a.m.**
