

UPDATE TO MEMBERS

ACEPROMZINE and SUPPLEMENTS

We again urge Trainers to exercise extreme caution when using Acepromazine on a regular basis, it will build up in the horse's system and will require additional withdrawal time prior to running in a race. It's recommended that you continue to work closely with your veterinarian if administering Acepromazine to your horse on a repeated basis.

Trainers are also reminded that all horses in their care and custody are their absolute responsibility.

Trainers please remember to be cautious using supplements, work closely with your suppliers and veterinarians regarding any vitamins or supplements that may be given to your horses.
